

Shahnawaz Chowdhury

Front-End Developer

Melbourne, VIC | shahnawazc987@gmail.com | 0474753761 | shahnawaz00.github.io/portfolio/

Profile

Professional Front-End developer who uses Javascript and ReactJS to create responsive websites. With over a year of experience in the field of software development, I am a proactive learner with a knack for adopting new and emerging libraries/frameworks. Working with teams to deliver results using clean, efficient, and scalable code is something I'm passionate about. I'm incredibly excited to be collaborating with future teams.

Skills

Languages

HTML

CSS

Javascript

Libraries

React.js

JQuery

React Redux

Frameworks

Node.js

Databases

MongoDB

Professional Experience

Front-End Developer, as a freelancer

2022

I worked as a freelancer to create attractive, responsive websites for small business companies based in Dubai, looking to go online. To create feasible design layouts, I partnered with a UI/UX designer.

Dubai, U.A.E

Full-Stack Developer, as an intern

2022

With the help of a senior developer, I worked on a full stack application. I learned how to create a scalable backend app with Node.js and MongoDB, as well as how to create a RESTful API with React Redux.

Remote

Front-End Developer, as a tutor

2021

To reduce the technical learning barrier, I taught a group of young developers the fundamentals of HTML, CSS, and Javascript. This improved their understanding of concepts and prepared me to go on to more sophisticated libraries and frameworks.

Dubai, U.A.E

Projects

Abdul Gani Embroideries L.L.C

Professional website for a small business company built in collaboration with a UI/UX designer, using ReactJS and Tailwindcss.

Post-It

A post-it application utilized as a notepad or reminder/task tracker.
Built with MERN stack and React Redux.

Education

Bachelor of Information and Communication Technology

2022

Major in Software Development, Swinburne University of Technology

Melbourne, VIC
